SCHOOL EXPERIENCE

International students interested in discovering Portugal and the Portuguese culture will no doubt enjoy their High School year in this country. **Portuguese ranks currently as the 6th most widely spoken language in the world !** Attending classes is practically the only activity that takes place in Portuguese public schools. Most students interested in other activities such as Sports have to take them outside schools. Students will be invited to attend two weekends with local Portuguese students. They may also be invited for other informal events such as dinners or evenings out organized by the local coordinator.

SCHOOL SYSTEM

Students will attend classes in a local public secondary school. The Portuguese Educational System consists of 12 years of schooling before higher education. Secondary schools consist of years 10, 11 and 12. The school principal will decide on the student's grade placement, most of the time in the 10th and 11th grade. After 9th grade, students have to choose a certain area of studies (general courses and technical/vocational courses). Each area of studies includes different subjects, some of which are compulsory for each area of studies (Philosophy, Physical Education, Foreign Language, Mathematics, Personal and Social Development). **Most schools have a system of extra free tuition in Portuguese as a foreign language for foreign students.** School starts in September and ends in June.
